

EU Type Examination Certificate

Date: 2024/11/28

n. **1060244801/OE**

Validity: 2029/11/27

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	FORMABOOTS S.p.A. via Giorgione, 5 – 31030 ALTIVOLE (TV) – ITALY
Type of PPE:	motorcyclists' protective footwear
Category of PPE:	II : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.
Model	"ADV KITE DRY FORU41W" col. BLACK/ANTHRACITE (9990)
Description:	<u>fastening system</u>: by means of black Nylon laces with "Lacing System" closure and black/silver webbing tape (INHIEVSILVER) for easy entry; <u>processing</u>: ago; <u>outsole/midsole</u>: grey rubber marked "FORMA" and black EVA foam (OSMKR385); <u>upper</u>: - <u>toe/lateral internal and external</u>: grey polyester mesh with black canvas base (BYK418N12), partially covered by grey 50C matt light sand texture welding TPU film (TPU50C); - <u>toe</u>: black microfiber finishing nubuck 1.2 mm thickness (5071-02Q) coupled with 1.0mm hot melt adhesive glue (HMAG100); - <u>heel</u>: black microfiber finishing nubuck 1.2 mm thickness (5071-02Q) coupled with 1.5 mm thickness hot melt adhesive glue (HMAG180); - <u>internal/external bootleg</u>: black microfiber finishing nubuck 1.2 mm thickness (5071-02Q) matched with white 3mm foam (K8) and white 5mm foam (K8); <u>collar</u>: grey polyester mesh coupled with 3mm of grey foam and black knitting (BYK418N12K55) matched with white 3mm foam (K8) and white 5mm foam (K8); <u>vamp and quarter lining</u>: white/grey knitting coupled internally with grey foam material, TPU waterproof film and white knitting (TXHITPU); <u>collar lining</u>: black three-dimensional mesh (TXME28TRI); <u>bellows</u>: black stretch knitting (ZZ-001); <u>tongue strip upper</u>: grey microfiber finishing nubuck 1.2 mm thickness (5071-02Q); <u>tongue strip lining</u>: grey soft PU 0.6 mm thickness (PU06); <u>insole</u>: white polypropylene (P16PPB) covered by vamp/rear lining; <u>removable insock (not perforated)</u>: blue foam material matched with black knitting (INHIME) in direct contact with the user. The boot has stiff inserts in polymeric material inserted in the upper, as follows: - <u>internal ankle padding</u>: orange D3O disc foam; - <u>external ankle padding</u>: orange D3O disc foam.
Technical Standard:	EN 13634:2017 Protective footwear for motorcycle riders – Requirements and test methods
Intended use:	use by motorcyclists for on-road activities, mainly for touring purposes
Size range:	from 36 to 48
Technical File:	DC-19247
Test report:	RCT n° 4347049/E

EU Type Examination Certificate

Date: 2024/11/28

n. **1060244801/OE**

Validity: 2029/11/27

Functions and
performance levels:

Requirements according to EN 13634:2017: all mandatory ones, among which:

Height of upper	level 2
Impact abrasion resistance of the upper	level 1
Impact cut resistance of the upper	level 2
Transverse rigidity of the whole footwear	level 1

Optional requirements according to EN 13634:2017:

WR = water resistance of the whole footwear;

IPA = ankle impact protection.

NOTE: the Technical Standard provides 2 performance levels with level 2 meaning the higher performance.

Marking:

printed on a stitched label and displaying the following information:

- **CE Marking;**
- name/trademark of the Manufacturer;
- item designation (= commercial name + alphanumeric code);
- pictogram to indicate the motorcycle use + nr./year of the reference Standard + levels of performance reached during laboratory tests + optional requirements (WR, IPA);
- date of production (month/year);
- pictogram instructing to read the User Manual;
- size indication;
- additional information: "Made in..." and batch number.

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements.
The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
